AYODEJI EZEKIEL OLUSOLA

CIVIL ENGINEER/BUILDER • CONSTRUCTION PROJECT MANAGER

Civil Engineering • Construction • Project Management

Lagos, Nigeria • +234 901 593 4337 • olusola40@gmail.com

PROFESSIONAL SUMMARY

I've spent the last ten years on construction sites and in project offices across Lagos, taking buildings from drawings to handover. My background started in site engineering, where I learned what it actually takes to keep a build on schedule, reading structural drawings correctly, sequencing trades so they don't get in each other's way, and catching problems before they become expensive ones. That grounding shaped how I manage projects now. As a Project Manager, I run the full picture: contractor coordination, budgets, safety compliance, client expectations, and the contracts that hold it all together. I've delivered work ranging from residential country homes to commercial buildings, churches, banks, and schools, and I've done it with a track record I can back up, a 98% on-time delivery rate, a 15% reduction in project costs, and a 95% client satisfaction rate on the projects I've led. What I bring to a team isn't just technical know-how, it's the discipline to keep a complex build moving without losing sight of quality or the people depending on it.

CORE SKILLS

Construction Management • Project Planning & Scheduling • Site Supervision • Civil / Building Works Coordination • Quality Control • Health, Safety & Compliance

Risk & Dependency Management • Progress Reporting • Cost & Budget Management • Procurement Coordination • Contractor & Subcontractor Coordination • Client & Stakeholder Management • Team Leadership & Coordination
